MEDICAL AID AND FEE PAYMENT

1. I am aware and consent to my information (including diagnosis and treatment information) being shared with my Medical Scheme if my account is submitted to my Medical Scheme for reimbursement. This practice makes use of a Medical Billing Software to assist with submission of all Medical Aid claims, accordingly my personal information will be shared with the Software Company to assist with processing my account for payment. I hereby consent to this disclosure.
2. Legislation compels the practice to provide certain information to the medical scheme on the accounts and failure to submit the correct codes might lead to the claim being incorrectly paid or rejected. The Medical Schemes Act states that an account submitted to a medical scheme must contain the relevant diagnosis. This must be submitted as an ICD-10 diagnostic code and it has become necessary to include these ICD-10 codes on referral letters, requests for special investigations.
3. I understand that if the practice forwards an account for payment to my medical scheme for reimbursement, the principal member of the medical scheme may become aware of the account, thus compromising my confidentiality.
4. Consultation fees are in accordance with the fees recommended by the National Health Reference Price List as published by the Department of Health and are in line with most medical aid rates. Consultation fees are subject to annual increase.
5. Medical aids sometimes pay less than the therapy fee. Sometimes they do not pay at all. **Note that the client will still have to pay the full account, even if the scheme does not pay in full.**
6. **A notice period of 24 hours is required for cancellation and rescheduling of appointments, otherwise the full session fee will be charged as the timeslot could have been allocated to another client. The session charge is also applicable to "no show" appointments.**

7. The client is responsible for attending their session on time and at the timeslot which had been mutually agreed. **The session duration is 50 minutes.** If the client is late, the session will still end at the scheduled end time. The therapist will only wait 15 minutes after commencement time of the session if the client is running late. Since such actions might cause inconvenience to other clients waiting for a session, these sessions will be charged in full and the client is liable for the account.

THE PROCESS OF THERAPY

Therapy can help a person to gain new understandings about his/her problems and to learn new ways of coping with and solving those problems. Therapy can help a person to develop new skills and to change behavior patterns. It can also facilitate the mobilization of existing resilience and resources. I/we understand that it is important that I/we mention any concerns or questions that I/we may have at any time during the process of therapy to the therapist. Please note that the parent(s)/guardian(s) will be requested to attend an intake session before therapy commences with the minor. This session is necessary in order to obtain background information which is useful in the therapeutic process. As such, the intake session is billed at the rate of a therapy session.

ONLINE THERAPY

Online therapy utilizes the internet for the transmission of personal information and therefore, there are increased risks to confidentiality. Please consider password protecting the devices you use. Your information remains secure and only available to me. When I am in contact with you, I will ensure that I am in a confidential and private space where no one else can hear or see the online interaction. Please can you make sure that you are also in a confidential space where no one else can see or hear your interaction.

Disruptions can occur when using the internet to communicate. Should our communication be disrupted, I will immediately attempt to reconnect and resume the session. However, if repeatedly unable to reconnect for 10 minutes, the session will be rescheduled to a later date once connectivity is resumed.

CONFIDENTIALITY AND THE LIMITS TO CONFIDENTIALITY

I/we have been advised by the therapist that all communications with me/us or with my/our child and all records relating to the provision of psychological services to me/us are confidential and may not be disclosed without written informed consent. I/we have also been advised by the therapist that the law places certain limits on the confidential nature of the psychological services provided to me/us. I/we have been advised that typically these limits on confidentiality may arise if the therapist perceives that there is a risk of harm in situations such as the following:

- If a minor presents an imminent danger to him/herself or others, the law requires that steps be taken to prevent such harm.
- If a minor is in need of protection, a report must be filed with the appropriate agency or authority.
- If a court orders the disclosure of records.
- Guidelines of confidentiality and limits on confidentiality do not apply to psycho-legal work, as reports are requested by courts and law practitioners.
